

## Block Tutorial

To start adding blocks you can click on the “+” icon in the left hand corner of the screen to pick out the block you want to select. At anytime you can preview your changed with the preview button in the right hand section of the screen.

Sometimes it's easier just to add a block after content by hovering over content and clicking on the “+” icon. You can also move blocks by clicking the arrow to the left of the selected block

If you click on the three dots on the top left side of the block you get some options to duplicate, Insert before, Insert after, add as reusable block.

Reusable blocks are for when you know you want the selected block to be used on multiple pages and won't need to be changed.

## Block Tutorial

### Paragraph Block

This block is just a simple block that can add text to the page. The additional options are alignment, font size, background color, and text color.

### Heading Block

This block is to create text that has a bigger default font size. The options of this block are simpler with only the label (font-size) and the alignment.

### Spacer Block

This block will add space between blocks in pixels. You can enter a number in the options or just drag it to desired size.

# Block Tutorial

## Image Block

When you need to add images to the site just use the image block. You selected a image by uploading it, selecting it from the media library, or you can also select it by url. The options for this block are the simple alignment controls plus “Wide width” and “Full width”.

## Columns Block

The columns block will allow you to add content that will be inline. The options for this block is how many columns you want, and if you want the content to have a “Wide width” or “Full Width”.

## List Block

This block is meant to easily add lists to your site. The options are unordered and numbered lists.

**Todo List:**

- Item 1
- Item 2

# Block Tutorial

## Gallery Block

The block will add a responsive gallery to the website. This blocks options are alignment, upload options.

Once you selected all the images you want you then can edit the image options before inserting the gallery to the page.

## Quote Block

This block will add a simple styling to the text you enter. Its options are alignment and has two default styles with it.

## Block Tutorial

### Cover Block

The cover block is meant to add text that hovers over an image. The options are alignment, overlay color, and background opacity.

The screenshot displays the 'Cover' block interface. At the top, there are three green 'Focus Block' buttons labeled 'Focus Block 3', 'Focus Block 1', and 'Focus Block 2', each with a 'Caption' label below it. Below these is a text input field containing 'My Quote' and a toolbar with icons for text formatting and alignment. The main preview area shows a background image of two people shaking hands at a desk. Overlaid on the image is the text 'My Title' in a white serif font, with a small toolbar above it containing 'B', 'I', and a link icon. To the right, a settings sidebar is open, showing 'Cover Settings' with a 'Fixed Background' toggle, 'Overlay' settings with a color palette and a 'Background Opacity' slider set to 50, and an 'Advanced' section.

### Video Block

This block will allow you to add videos to your site by uploading a video, use a video from your media library, or insert from url.

The screenshot shows the 'Video' block interface. The main preview area features the same background image as the Cover block, with 'My Title' overlaid. Below the image is a video player interface with a toolbar and a settings sidebar. The settings sidebar is open, showing 'Video' settings with options to 'Upload', 'Media Library', or 'Insert from URL'. A text input field below contains the URL 'https://www.youtube.com/watch?v=2o5mSSGvm;'. The 'Advanced' section is also visible in the sidebar.

The options are alignment, and to add an caption.

The screenshot displays the 'Video' block interface with a video player. The main preview area shows the background image with 'My Title' overlaid. Below the image is a video player for a YouTube video titled 'WordPress Update Tutorial - The basics for...'. The video player has a toolbar and a settings sidebar. The settings sidebar is open, showing 'YouTube' settings with an option to 'Embed a YouTube video.' and an 'Advanced' section. Below the video player, there is a 'Caption' field with a toolbar containing 'B', 'I', and a link icon.

### Classic Block

In the end of the day, you may need to just make content in a simpler way and you can with the classic block. You can add content the same way you write an email or make a word document.

The screenshot displays the WordPress Classic editor interface. At the top, there are two input fields for author names, labeled "John" and "Doe". Below this is a large text area with a pink background and the word "Text" centered. To the left of this area is a small image showing two people in a meeting. Below the text area is a rich text editor toolbar with options for Paragraph, Bold (B), Italic (I), List, Quote, Link, Unlink, and a menu icon. Below the toolbar is a text input field containing the word "Hello". At the bottom of the editor, there is a prompt: "Start writing or type / to choose a block". On the right side, there is a sidebar with a tab labeled "Block" and a sub-tab labeled "Classic" with the text "Use the classic WordPress editor."

**These are just some simple default blocks and you might have more options depending on what plugins you have installed.**
