*Town of Little Suamico*  
**Town Chair**

## **Chairman's Monthly Report Highlights**

***August-September 2025***

---

*Per monthly report requested by Electors at the 2025 Annual Mtg.*

1. **Roadwork:** This period I inspected work that was ongoing for Sundale Court and Geano Beach. Work was extended on Sundale due to additional “soft” sections needing to be filled with more stone, this delayed the start day for Geano Beach construction. I had the opportunity to speak with residents along these roads to inform them of our progress/delays. Geano Beach has multiple culverts needing replacement – doing so now saves both time and money. Additionally, the failed culverts on East Frontage Road and another on Sandalwood were approved by the Town Board for me to authorize their immediate replacement for public safety. They are replaced and awaiting asphaltting. The pipes were completely rusted through and failed beneath the roadway.
2. **Railroad crossings** need to be clearly visible. This requires tree trimming and brush removal. I've contracted to have the services done to meet the requirements of the Railroad inspectors.
3. I've held meetings with the Supervisor overseeing the Recycling Center to hear his research findings on providing a brush drop off center. Additionally, we discussed options to correct our land use issues with a neighboring property owner. Each option will require time and resources to resolve. Town Board will need to approve any long term option.
4. **Authorized the painting of the flagpole at the Town Park.**
5. **Attended the Local Governments Center and the Towns Association training, an all day event this month.**
6. **Responded to firepit burning complaint and 3 animal nuisance calls.**
7. **Problem areas of shouldering along roadways due to washouts were addressed.**
8. **Ditch cutting was completed for approximately 180 miles of road. Meetings held with contractor, who did a great job, again. I inspected areas that can be troublesome, cut was good. The contractor was easy to work with and very professional.**
9. **Working with engineer to design an inventory of our roads, the engineer will evaluate each of our roads to meet the State DOT mandates to do so. This information will be**

- incorporated into my road plan for replacing or repairing roads within the town and presented to the Town Board each year when we select the roads to be worked on.
10. Meetings held with County Zoning staff to get the required verbiage to make amendment to our 20 year comprehensive plan to incorporate our 41/141 Corridor Plan AND housing projections.
  11. Assisted the Town Clerk in preparing grant proposals for the park.
  12. Buck's Lane and Nero Subdivision brush and tree trimming plan modified. Work to be done in mid to late October. Answered questions by residents about Oak Wilt.
  13. Discussed with Building Inspector 1 complaint by people wanting to know what neighbors are doing on their lands.
  14. Reviewed Ordinance Committee draft changes and Town Attorney's ordinance for adoption.
  15. Discussed and reviewed the draft Budget as prepared by the Town Clerk/Treasurer.
  16. Reviewed monthly town bills and authorized their payments.
  17. Received updates on maintenance work, needs, requests, and hours.
  18. Reviewed time sheets and signed payroll for town staff.
  19. Held in-person hours at the Town Hall (56 hrs.).

Penny

For Sept. Board Meeting

Attended  
National Night out
